

BOILERS & SERVICING

High Efficiency Boilers from EMS

EMS have standardised upon Worcester Bosch Oil and PRO Combi boilers for many years now.

We believe these to be the most energy efficient condensing boilers.

In fact EMS were instrumental in bringing condensing boilers to the Isle of Man in the 90'S, and were presented with the Green Apple award for our work in boiler conversion technology.

Boiler servicing and maintenance

You should have your boiler serviced annually to ensure safety and minimum running costs.

It is also a requirement for some home insurance policies, and a legal requirement for some tenancy agreements for those in rented accommodation.

We are Gas Safe and OFTEC registered so you can rest assured all work is carried out to the highest standards which meet the requirements of both insurance companies and landlords.

We have a duty of care to our customers so when we service a boiler we service it thoroughly and properly.

If you just need some advice we are always pleased to help.

Peace of Mind

EMS can offer "Homecare" with cover from 45p per day, for this amount you get complete cover including parts & labour & an annual service, you can pay for this by monthly standing order giving you year round peace of mind.

We pride ourselves on our quick response and our Homecare contract covers all repair and maintenance work ensuring you won't be left in the cold.

There are 3 levels of care available, Please contact us at any time for further information, more info at : <http://www.ems.co.im>

In conjunction with Conister Bank interest free & low interest finance are available, please call our office on: 613210 for more details.
